

# EPTEC RKL 350

## Powerful spot-cooler

You can efficiently cool working and living areas with the portable RKL 350 air-conditioning units. In these small, flexible air-conditioners, the condenser, compressor and evaporator all reside in a compact housing.

- High cooling capacity
- Ready for immediate operation
- Easy and efficient dehumidification without having to empty it out
- Practical electronic system for operation with digital display of temperature and operating mode
- Air outlet with swing function
- Removable air filter
- Gradually adjustable air outlet direction
- Automatic drain of condensate
- Compact design
- Standard infrared remote control
- Programmable 24-hour timer function

Unit type	Unit	RKL 350
Cooling capacity	kW	3,5
Energy efficiency class (cooling)		A
Dehumidifying performance, max	l/h	2
Refrigerant		R407C
Air volume	m/h	450
Fan stages		3
Operating range (room size)	m	100
Sound pressure level per stage	dB(A)	49/51/52
Power supply	V/Hz	230/1/50
Total power input	kW	1,31
Exhaust air pipe, length	mm	1250
Dimensions h/b/l	mm	840/450/380
Weight	kg	35
Series colour		White
