

## HFKW / HFO chiller

Chiller with compact screw compressors for water or glycol cooling. Plate heat exchanger for space saving installation. Economizer for best coefficient of performance. Evaporator as 2 circuit model. A high degree of prefabrication guarantees a very time efficient assembly in the machine room.

### Performance data

Example. Please contact us for individual enquiry.

chiller		kws 1-227
Evaporating / Condensing	[°C]	+3/ +48
Cooling capacity	[kW]	2 x 139
Power input	[kW]	2 x 41
Cooling water in/out	[°C]	+40 / +45
Economizer	[kW]	2 x 19
Chilled water in/out	[°C]	+12 / + 7
Länge / Length		3500
Breite / Width		1000
Höhe / Height		2000
Leergewicht / Weight		3200

### Features

individual design |  
service friendly configuration | copper piping | sound housing

### Accessories

air cooled condenser provision possible |  
electrical cabinet | shell and tube exchangers  
heat recovery | pump station for brine cycle | Pre-wiring | housing
