

Ammonia single compressor

Machine unit with open type screw compressor for ammonia (R717).

Mounted with reliable oil control system. Water cooled oil cooler completely tubed and welded.

A high degree of prefabrication guarantees a very time efficient assembly in the machine room.

For more cooling capacity or better capacity control ask for our compressor racks with 2 or more compressors.

Performance data

Example. Please contact us for individual enquiry.

		sx1-1015
Cooling capacity	[kW]	550
Power input (Shaft)	[kW]	190
Evaporating / Condensing	[°C]	-13/ +42
Länge / Length	[mm]	3400
Breite / Width	[mm]	1300
Höhe / Height	[mm]	2800
Betriebsgewicht / Weight	[kg]	4100
